2  
3 UNDERWATER WEAPON SYSTEM HAVING A ROTATABLE GUN

4  
5 ABSTRACT OF THE DISCLOSURE

6 An underwater weapon system having a housing formed by first  
7 and second halves thereof sandwiched about a gun system that is  
8 rotatably mounted to and between the first and second halves.

9 The gun system includes a gun and ammunition sealed within a  
10 waterproof housing with a muzzle of the gun protruding from the  
11 waterproof housing. The gun system is rotatable relative to the  
12 first and second halves of the housing while the housing can be  
13 maneuvered to rotate through a plane of rotation of the gun  
14 system as the housing moves through the water.
